

LAB AVAILABILITY

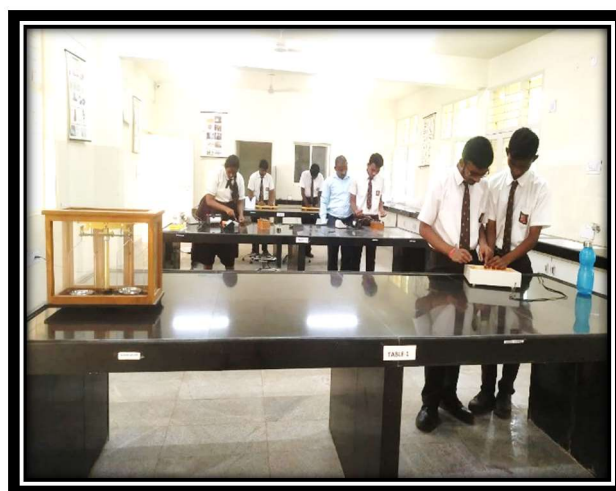

SCIENCE LABORATORIES

The school has well equipped laboratories for Physics, Chemistry and Biology. Learning by doing helps the students of classes VI to X to unearth their experimental and investigative skills.

CHEMISTRY LAB

PHYSICS LAB

BIOLOGY LAB

MATHEMATICS LAB

The school has also set up a mathematical lab having a wide variety of mathematical models and charts. For the young beginners, there are adding up rods abacus, count and match puzzles, number picture trays, time learning clock and different geometrical shapes.

COMPUTER LAB

In the modern world e-literacy is considered as equally important as literacy because to navigate the world, that is dominated by computers, one needs to be adept in using computers. Therefore we have made it mandatory for students to be computer savvy by initiating students to computers at an early stage. We have setup a state of the art Computer Lab with 20 workstations of latest configuration to impart computer training to the students by competent and qualified instructor. Two periods of Computer Education have been provided for the classes from I to X.

WELNESS CLASS:

To identify the interest, taste and problems of the children wellness classes are important. We have regular sessions for the same in the School.

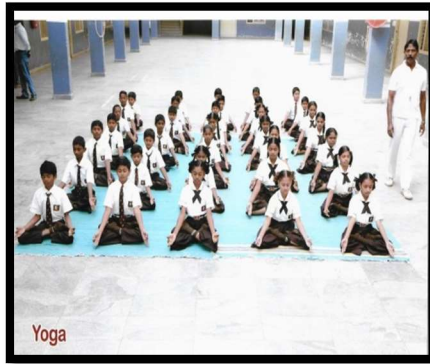

LIBRARY:

Our school library is an organized collection of study and teaching material aimed at pupils, teachers and other staff alike. We have fairly good collection of books in terms of quality & quantity which meets the requirement of all existing classes. We are committed to improve & expand our library progressively each year and sufficient budget is earmarked for the same.

PHYSICAL TRAINING:

For healthy mind and soul Physical fitness is essential. Physical Training like yoga, Mass physical training and meditation are regular practices in the school curriculum.

VAST PLAYGROUND:
